To whom it may concern

I have assessed the signs submitted to me by Rowmark Australia, see examples below, against Australian Standard 1319 – 1994/2018 – Safety signs for the occupational environment

In my opinion in addition to being compliant to the relevant section of AS 1319 they meet the new messaging requirements covid-19 will require in the hospitality, commercial and care work environments.

The way these signs are manufactured will make them a good fit for any organisation that requires signs to be easy to clean and/or require high levels of hygiene.

Should you require any additional information please contact me
